Company: Oatman Water Company, LLC Division: Water

Nature Of Opinion

Docket Number: W-04069A-16-0080 Docket Position: Against

Oatman water company received several years ago, a grant to dig an emergency well. this was money used for other things that it wasn't supposed to be used for in creating more revenue for the company that it wasn't supposed to do! Not only that, the operating owner, Steve, pads his expenses of over 60% to falsely create a larger expense on the companies behalf. The water is barely usable for laundry! It is not usable for drinking, and really shouldn't be used for bathing. In fact, the water is possible becoming poisoned by the humongous amount of cianide gold mine tailings that is now leaching into the water, which could be, and most likely will soon be poisoning everyone using this water. which means, this will be another scandel like the flint michigan water crisis. And that also means that the state of arizona, and all the persons on the corporation commission will be liable for charging all of the oatman residents more money to be poisoned!
